

Resource

```
classDiagram
    class Resource
    class main_command["main.command"] {
        +get()
        +post()
    }
    main_command --|> Resource
```

The diagram illustrates a class hierarchy. At the top is the 'Resource' class, represented by a white box with a gray border and two empty internal compartments. Below it is the 'main.command' class, represented by a gray box with a black border and two compartments. The bottom compartment of 'main.command' contains the methods '+ get()' and '+ post()'. A blue arrow with an open triangular head points from the top of 'main.command' to the bottom of 'Resource', indicating that 'main.command' inherits from 'Resource'.

main.command

+ get()
+ post()
